

Figure 1. Start Screen with added category option

From the start screen select your topic, number of players and press start to begin.

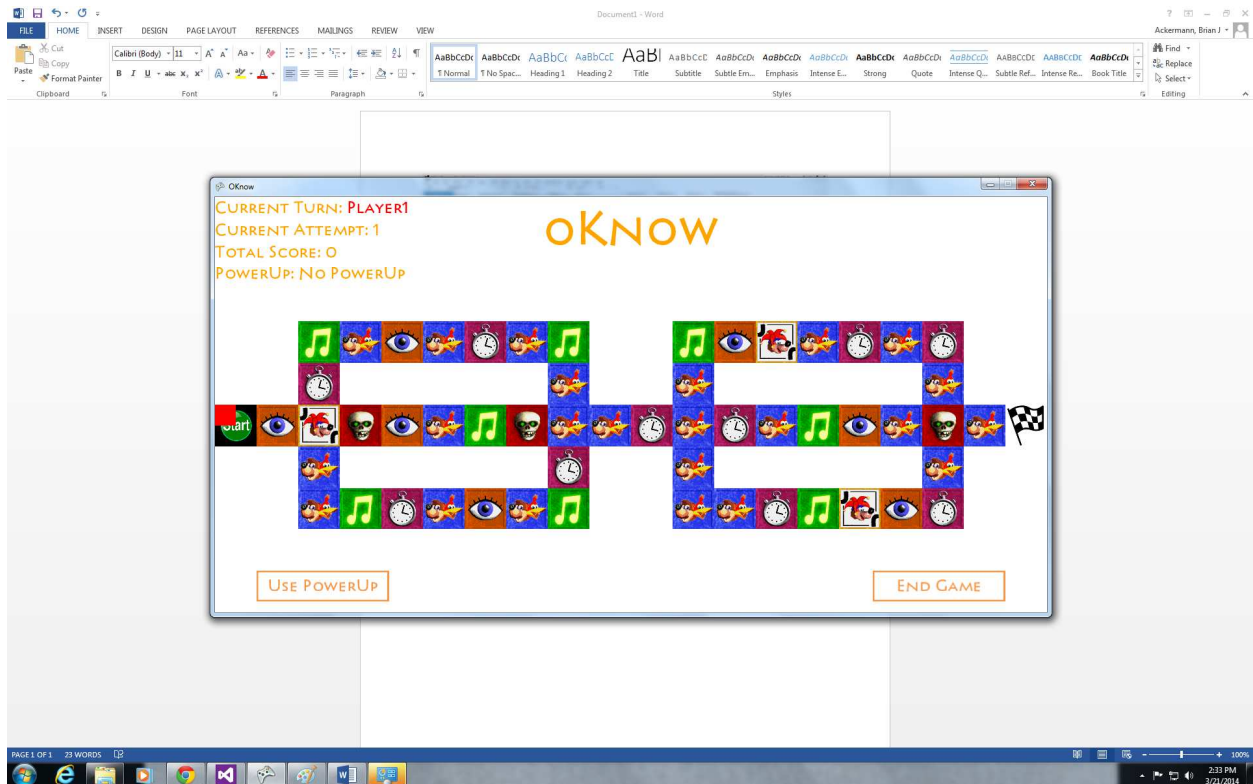

Figure 2. Updated Game Screen

Once at the game screen you will notice that there is a formalized player output expressing their current attempt at the question, their score, and any power ups they may have. Options to use a power up and end the game have been added.

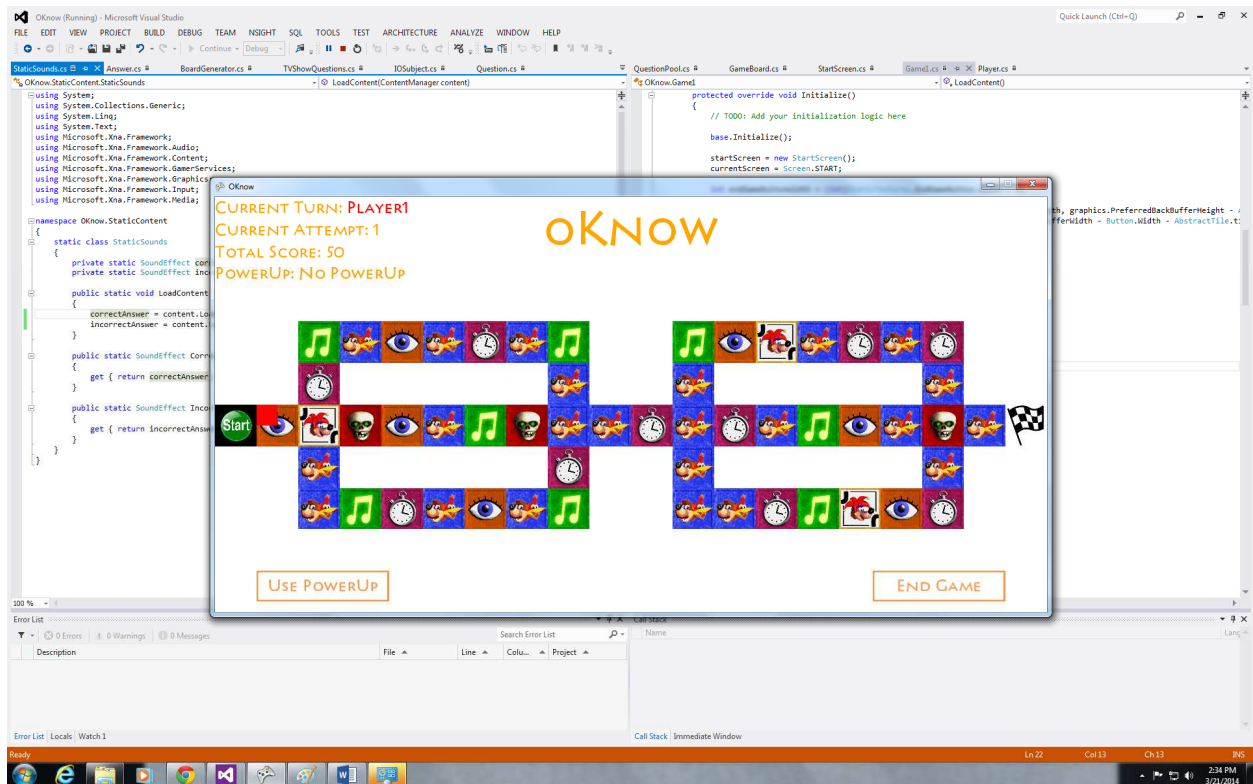

Figure 3. Updated Player output

After successfully answering a question on the first attempt you will move one space forward and receive fifty points.

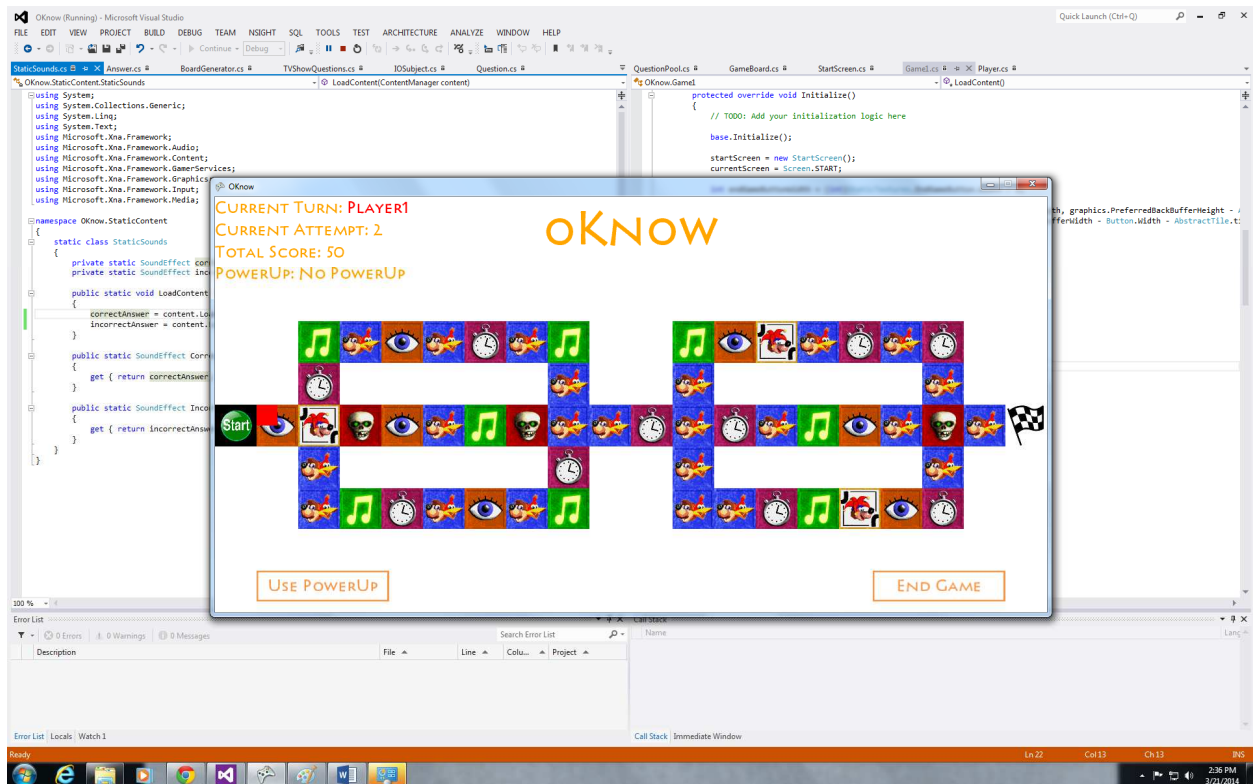

Figure 4. Updated Player output when question answered incorrectly

Upon answering a question incorrectly you will hear a distinct buzzing and notice that you have not moved forward and have not received any points.

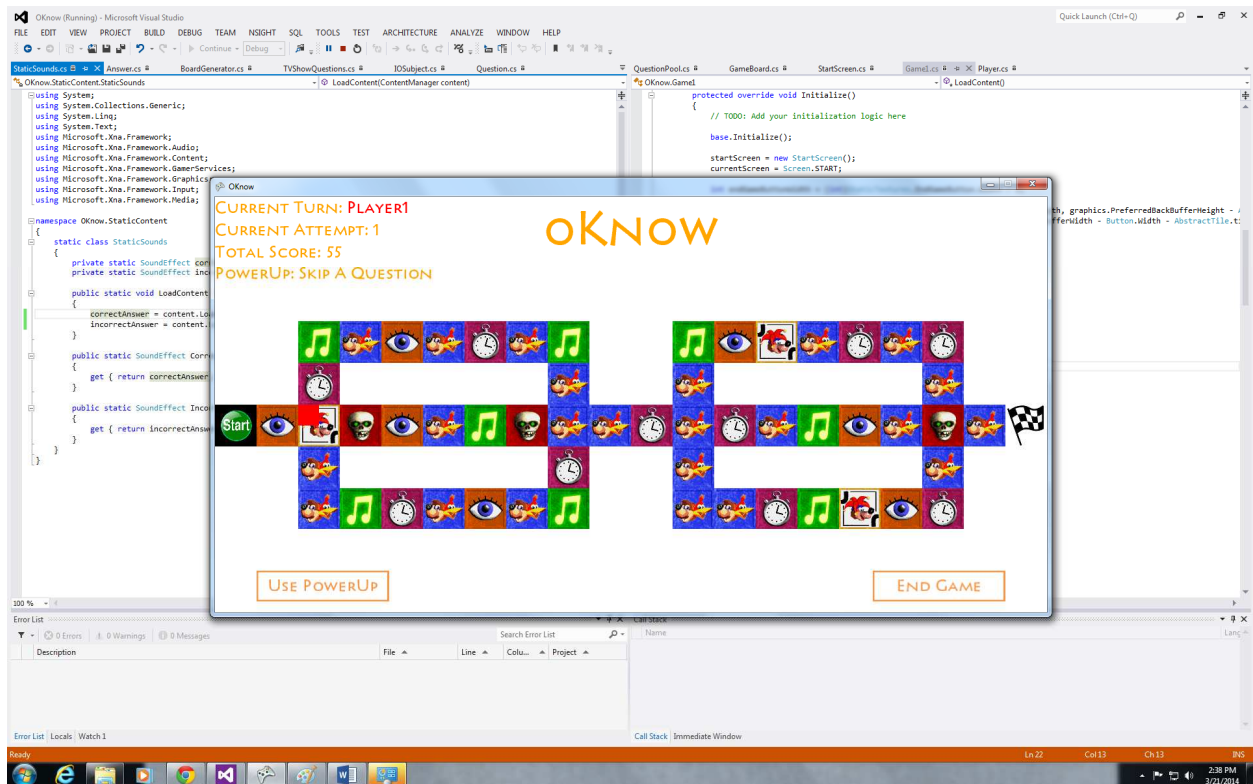

Figure 5. Updated Player output when answering a question after multiple attempts

Upon answering the question on the fourth attempt my points only increase by five.
